DETAILED ACTION

Response to Amendment

Amendment, filed on September 30, 2003, has been entered and acknowledged by the examiner.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows: In claim 16 line 19, the wording "second electrode layer" has been changed to - - second electrode layer. - -.

The applicant's response is not deemed necessary.

Allowable Subject Matter

Claims 7-16 are allowed.

Regarding claim 7, the following is an examiner's statement of reasons for allowance: The prior art of record neither shows nor suggests an organic electroluminescent device including the combination of all the limitations as set forth in claim 7, and specifically a relief pattern separating the charge transport areas along

each first electrode and between neighboring the first electrodes and an organic charge transport layer having mutually separate charge transport areas which are positioned between the electroluminescent layer and the first electrode layer could not be found elsewhere in prior art.

Regarding claims 8-12, claims 8-12 are allowed for the reasons given in claim 7, because of their dependency status on claim 7.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Glenn Zimmerman whose telephone number is (703) 308-8991. The examiner can normally be reached on M-F.
